6th Grade Class
Green Chimney's School
Putnam Lake Road
Brewster, New York

Dear Mr Weisberg,

We are Students of the sixth grade class at Green Chimney's School and our teacher is Mr. Tuttle, your friend. Mr. Tuttle has told us many things about the Murder of President Kennedy and he has also played for us the tape recording he made with you.

Recently Mr. Tuttle read to us an article from the New York Times about a man who asked the government for release of information about the Murder. The article said that this man Mr. Nicholas Chopped that a man named Lee Oswald was a double for the real Lee Oswald and that recent efforts to trace this man's whereabouts were not successful. Could you please tell us what you know about this new evidence, and if Oswald was a double for

the real Oswald? We would appreciate any information you could get us about this new evidence and its validity. Just a short letter would be greatly appreciated.

Thank you very much for your time.

Yours Truely,
Chris Mayes Coronado
